BASEBALL

Norway High 10; Buckfield High 5
Showers at intervals failed to disturb the ball game at the fair grounds Saturday afternoon when Norway High School defeated Buckfield High 10 to 5. The game was close until the sixth inning at which time Norway put over a succession of hits with a pass and landed three runs. Buckfield filled her bases in the eighth with nobody gone and was given an opening to even things. Purington struck out the next three batters and the rally expired.

Summary: Struck out by Purington 10, by Hutchinson 6.

Norway High 5; Bridgton Academy 1

A close and exciting game was played at North Bridgton Wednesday afternoon with Norway in a fight to keep a winning streak. The Bridgtons made a strong showing and the visitors were forced to play real ball and could gain no advantage until the eighth inning. To that time the score stood 1-1, but several singles and Rice's triple into left broke the deadlock with Norway on the heavy end. Bridgton's inability to duplicate the performance closed the show in favor of Norway. Purington for Norway struck out 6. Milliken for Bridgton landed 4.

West Paris Here Saturday

Norway high school will go after West Paris high school team at the fair grounds Saturday afternoon at 2.30.

Both teams are working smoothly and the combination would indicate an exciting battle ahead. Judging from results by the work of both teams, it is a safe guess that this game will prove a hard fought contest and a narrow margin for the winner. Cheering squad with Elizabeth Klein leader will furnish all the latest selections.

Heath-Watson

Pretty home wedding took place, Wednesday evening at 7 o'clock, at the home of Mrs. Alice Watson at the Center when her daughter, Effie Christine, was united in marriage to Howard Cecil Heath.

The bride was becomingly gowned in a dress of white Crepe de Chine with pearl trimmings and carried a bouquet of white and pink roses. The bride's maid was Ruth S. Noble, who wore a dress of white voile and carried a bouquet of white and pink roses. The best man was Addison J. Heath. The officiating clergyman was Rev. M. O. Balzer. The house was prettily decorated with potted plants and early wild flowers.

The guests out of town were Stanley William of Gray and Mrs. J. Willis Ross of Clark's Mills.

Mrs. Heath is the daughter of Mrs. Alice and the late Daniel A. Watson of Norway where she has resided. For the past few years she has been employed at the Carroll-Jellison shoe shop.

Mr. and Mrs. Heath will make their home at Swift's Corner, where they will go to housekeeping at once.

An Evening at the Opera House

The New King of Trumps at Norway Opera house Wednesday evening, was a typical old fashioned show. Such a play as we all attended "before the movies". The manager, E. J. Cole, knows his business, and Norway people know the manager, that he has always made good in the entertainment line and they attended in numbers. Jimmie, the scarecrow, easily captivated the popular fancy. He was a great reader of the novel, and he read from his interesting book, "I was bound on the plains and surrounded by 120,000 Indians. With my strong right arm I slew 60,000, and with my strong left arm I slew 60,000 more." But he seldom found leisure to read thus far for he was a busy man. His gravity and looks must somewhat resemble that of our own noted humorist, Artemus Ward.

His bell ringing excelled his acting, and his violin music on a violin made of a cigar box with one string, as he said "a wooden instrument made out of his own head," was mighty fine. Tris, the mischievous, pretty little leading lady, was a great success in voice and manner, and shared honors with that nuisance, a book-seller tramp. One of the actors was also a singer, a writer of music and a composer of songs, so popular he told us he "could not get them published as fast as they sold." Packages of candy were as they sold. Some of them contained other things. These were eagerly bought. One young man in the back gallery pulled fourth from his package a pair of ladies, long, white stockings. T's said lightning never strikes twice in a place, but later this fellow bought another package, and behold another pair of a smaller size of white hose.

Mrs. Ellen Wentworth was a guest, Saturday, of Mrs. Ford Swan on her way from Florida to Bartlett, N. H., where she is employed during the summer at Mrs. Lasselle's cottage. Mr. Lasselle the Sinclair House.

Official readings of the thermometer at the electric power station give 78 as the warmest part of Monday, Tuesday and Wednesday.

Helen Tracy, who teaches in the high school, will have charge of the play grounds at Rumford.

Mrs. Charles Johnston of Portsmouth is visiting her brother, Dr. Fred E. Drake, at his home on Pleasant street.

The juniors at the Norway high school have commenced rehearsals for their play, "Dust of the Earth."

Old A. Anderson is director of the drama and will stage the show. The drama will be presented at Norway Opera house in about three weeks.

Edward Gray Burnell

Edward Gray Burnell, a lifelong resident, and one of the highly respected citizens of Norway, passed away Thursday night at his home on Main street. Although he had not been in his usual health for nearly a year, it was not known that he had any serious trouble until last December. On March 26 he went to the Eye and Ear Infirmary, Portland, for treatment, but it was thought best not to operate, and he returned home and has gradually declined. He attended to his work at the Carroll-Jellison shoe factory the day previous to going to the hospital, and that evening enjoyed a game of cards with three of his neighbors, not telling any of the his plans for the following day. Although he had been quite a sufferer at times, he was uncomplicated and every day found him cheery and ready with his usual jokes. He was a friend of everybody, a favorite with the employees at the factory, and will be missed in the neighborhood where he lived, and in the community.

Mr. Burnell was born in Norway, Oct. 28, 1850, the son of Dr. Alfred P. and Nancy J. (Barrows) Burnell, both well known residents of the town. He acquired his education at the Norway Liberal Institute. March 7, 1875, he was united in marriage with Fannie G. Weeks, daughter of Lewis B. Weeks, the well known musician and conductor of the Weeks Orchestra for a long period of time. Mr. Burnell was a musician and was a member of the old Norway Brass Band, playing the bass drum. He remarked only a short time ago, that he had "drummed three military companies out of town which they left for good."

When Company D went to the Spanish-American War, when they went to the Mexican border, and when the World War Soldiers left town.

Mr. Burnell was a Republican, and an attendant at the Congregational Church. He was a member of Norway Lodge No. 16, I. O. O. F., having been affiliated with the order since January, 1875. He was secretary of the lodge for many years.

As a young man Mr. Burnell learned the baker's trade and worked at the old Marston Bakery which was later sold to B. C. A. Pingree. For forty years he had been a shoe maker working for the B. F. Spinney Co. and later for the Carroll-Jellison Shoe Co. In the interim between the going away of the Spinney people and the coming of the present firm, he was employed at the Paris Mfg. Co. plant at South Paris. He was the last of a family of four children. One sister died in infancy. A brother, Calvin B., who had been wounded in the Civil War, was drowned when the steamship was sunk in New York Harbor, June 2, 1864. Another brother, Charles, died many years ago.

Mr. Burnell is survived by his widow and one son, Edward L. Burnell, and one grandson, Burnelle Burnell.

Funeral services were held Sunday afternoon from the home on Main street, Rev. M. O. Balzer, pastor of the Congregational Church officiating. An abundance of beautiful flowers covered the casket. The bearers were Llewellyn H. Gushman, Charles A. Richardson, Percy H. Nevers and H. Walter Anderson. Among the relatives from out of town were William P. Emerson, from Manchester, N. H.; Mrs. Anna Emerson, from Auburn; F. P. Bennett, Benjamin Bennett, Mr. and Mrs. Granville Burnell and Mrs. Nellie Webb from Bridgton; Mrs. Julia Horne, Mrs. George W. Horne, Mrs. Mary Churchill, Lewiston; Harry S. Horne, Richmond, Me.; and Mrs. Frank Kimball of South Paris. Interment was at Pine Grove Cemetery.

Mrs. A. M. Dunham left, Monday, for Portland to enter the Eye and Ear Infirmary for a surgical operation.

She was accompanied by her nurse, Dorothy Noble, who is a niece of Mrs. Dunham. Another niece, Anna Noble, is also a nurse at the same institution who will assist Miss Noble.

Mr. and Mrs. Peril Swan and Mrs. Howard Lasselle were at Poland Camp Grounds, Sunday, and passed the day at Mrs. Lasselle's cottage. Mr. Lasselle of Bath joined the party.

Mrs. Alice Marston returned this week from Fredericksburg, Va., where she passed four months with relatives. Genevieve Barker went to Portland, Thursday, to commence work in an insurance office at Dow & Pinkham's.

Lee M. Smith, Eugene N. Swett, Z. L. Merchant, Ernest B. Jackson, and Albion L. Buck attended the Retail Merchants' Association at Lewiston, Wednesday. The Association was entertained by the Lewiston Chamber of Commerce at their rooms. A banquet was served at the De Witt Hotel.

Currie Wiles has bought the George Frost house on Hazen street, and Ora Wiles has bought the home of the late Genevieve Barker, owned by Mason Kilgore.

Mrs. Sumner Parker returned Monday afternoon from Center Conway, where she has been stopping with her sister several weeks while convalescing from a serious attack of erysipelas for which she was treated at St. Barnabas Hospital before going to Conway. Since her return home she has been ill and her sister is stopping with her.

Mrs. Eva M. Kimball is assistant and clerk at the Stuart W. Goodwin Insurance office. Genevieve Barker completed her engagement there, Saturday, and goes to Portland this week to accept an office position.

Hamlin Lodge Observed Pythian Sunday

Pythian Memorial Lodge was observed Sunday, by Hamlin Lodge, K. of P., and Hamlin Temple, Pythian Sisterhood. The

rites of the ceremony started at K. of P. Hall, about 10 o'clock and proceeded to Riverside Cemetery, where several Pythian graves were decorated. The Leodan quartet, Evelyn Wight, Emma West, Louise Silver and Gladys Hatch sang "In God's Keeping, Rest." Rev. C. W. Rogers offered prayer and there was the usual ritual service, after which they marched to the Universalist Church, where Rev. Chester G. Miller gave an interesting sermon. The Aeolian quartet sang "More Love to Thee," "Honor Their Memory," and "They Are Resting Today." There was a very large attendance.

IDLE THOUGHTS

In the woods at spring time, I listen to the bird
Carol forth its music with rapture all unheeded,
And musing by the fire light,
When winter rages cold,
I can hear that self same music
In my brain—the air untold.

No! I cannot sing the bird song, nor can I
Touch the strings
Of violin or harp, to make that echo ring.
But all its sweetest cadence
Lives, and in my heart holds sway,
Unexpressed, the undying melody.

I hear that music all the day.
From my window facing westward,
I see the glory of the sun,
With the grandest colors seen on earth
Just before the day is done.

But I cannot place on canvas,
That great and glorious sight,
The my heart grasps all its beauty
And its fine and changing light.

Every day I see the grandeur
Of noble lives and true;
And think I could weave it
How much good it all might do.

But I cannot make my lips or pen
Tell the story in my brain,
Or when happy, to tell it,
I cannot make it plain.

But, I think God did not give us
These small talents so obscure,
But that sometime in the future,
All will be plain and sure.

Then the almost artist, or musician,
Or the writer, or the sage,
Will have perfect self-expression.

THE WOUNDED BIRD

"The bird with a broken pinion
Will never soar so high again."
—H. Butterworth.

"The bird with a broken pinion,
Will never soar so high again."
Never, in the face of the tempest,
Rise with its old disdain.

Not east or west, nor south or north,
Above the fast falling rain,
A mate that it loved so fondly,
Flies by in a snowy wing.

But the bird with the broken pinion,
Will never soar, nor sing,
Though it long for the old fountain,
And the pleasures that freedom brings.

The mist of life may enshroud it,
And he hide from the world's eye,
Some familiar note may wake it,
Where once it loved to sing.

Ah! does it not again, in fancy,
Sweet the aureole sky to free,
Or swing once more in the treetop,
In time to its own melody,
Or lulled by the winds that see,
In bowers that are fair to see.

**Rosindale Woman Recom-
mends This Prescription**

Mrs. Albert J. Patch, of Rosindale, Mass.,
writes: "Before taking your medicine (Dr.

in my stomach, expelled worms, and I felt
like a new woman. I can now eat and sleep
heartily and recommend it to any one suffering as
I did."

THIRD TERM NO ARGUMENT

A South Paris contributor, well versed in the political history of Maine, has gleaned indisputable facts which are presented as follows:

"The third term" argument should have little force with the average voter, especially when he is shown that of all our Maine governors one was elected five times; five four times; eight three times; ten twice; and eleven once. The precedent is not hard to find."

I'll Praise It Long as I Live

Manchester Woman Is Enjoying
Perfect Health Since Tanlac
Built Her Up

"I have taken only two bottles of Tanlac so far, but my improvement is simply wonderful," said Mrs. Azelda Vignault, 2 Charles Street, Manchester, N. H., recently. Continuing she said:

"Before I began taking Tanlac I had scarcely any appetite to speak of and when I did manage to force down a little something I would suffer dreadfully from indigestion. I was so badly run down I felt tired and worn out all the time and was unable to do my housework without stopping and resting time after time, and often I would put off everything I could until the next day, as I was just unable to finish what I had to do. My nerves were in awful condition, and I could get but little sleep, and always got up in the morning feeling exhausted and as if I had not been to bed at all.

"I was in this miserable condition when I heard of the great benefit a neighbor of mine had received from taking Tanlac, and decided I would try it, and I began to improve almost at once. I have a fine appetite now and everything I eat agrees with me perfectly. My nerves are in good condition and I sleep as peacefully as a child all night long, and get up in the morning feeling greatly refreshed. I have regained my strength until I can now do all my own housework with the greatest ease. In fact, I am feeling fine and am enjoying better general health than I have in years. However, I am still taking Tanlac, as I want to be perfectly sure I will not have a recurrence of my trouble. There are two families in the house in which I live and after seeing the benefits I was receiving from Tanlac, they are all taking it with good results and all are so pleased with it they never miss an opportunity of saying a good word for it. As for myself, after what Tanlac has done for me, I will praise it as long as I live."

Tanlac is sold in Norway by A. L. Clark Drug Co., and in West Paris by S. T. White.

The Stove that Cooks 9,000,000 Meals a Day

Three million kitchens with their daily three square meals. Meals that are cooked without the drudgery of kindling, coal hods, ashes and soot—cooked in kitchens that are cool, clean and comfortable.

The New Perfection Oil Cook Stove gives you that kind of kitchen comfort. It gives you controlled heat for any kind of cooking. A turn of the handle supplies the high, white-tipped blue flame—the hottest flame for fast cooking—or a low, even flame for slow boiling or simmering. The long, blue chimney

drives the heat directly against the utensil.

The ovens in these stoves are scientifically constructed to circulate fresh, hot air around the food, driving out the steam and maintaining an intense, even heat.

For your further convenience—the New Perfection Water Heaters furnish hot running water at a very low cost. They are adjusted to thousands of water systems the country over. New Perfection Oil Cook Stoves and New Perfection Water Heaters are sold by dealers everywhere.

FRYEBURG

Fryeburg 4; Standish 2
Suburb fielding behind Johnson gave him the edge on Wood in a pitchers battle, and Fryeburg Academy won a hard fought game from Standish high school and Sebago lake on Saturday by a score of 4 to 2. The Standish hurler fanned 17 batters, while Johnson breezed 10, but the former was found for seven safeties, while the Fryeburg moundman allowed but three genuine blows. Davis, third sacker of the visitors, was hit by a pitched ball the first time at bat, and was too badly hurt to continue the game.

YOUR LIBERTY BOND

The United States Government borrowed money from you to finance the War. You hold the Government's promise to pay you back. This promise is called a Liberty Bond or Victory Note. On this Bond is stated the conditions under which the Government borrowed money from you.

For instance: If you hold a Bond of the Third Liberty Loan, it states that on April 15th and October 15th of each year until maturity, you will receive interest on the amount you paid for the Bond. Other issues bear other rates of interest and other maturity dates, all of which are clearly stated on the Bond.

Now, if you keep your Bond until the date when the Government pays you in full for it, you do not need to worry if, in the meantime, the price is low one day or high the next. You and Uncle Sam are living up to your agreement with each other, and neither will lose by it.

On the other hand, if you sell your Liberty Bond now, you will find that the man you sell it to will not give you a dollar for every dollar you paid for it. The price has been brought down because so many people are offering to sell their Bonds. If the market is flooded with tomatoes, you can buy them cheap, but if everyone is clamoring for tomatoes and there are few to be had, the price goes up. The same is true of Liberty Bonds. Short-sighted people are dumping them on the market, and wise ones are buying them.

The best advice that can be given to the owner of a Liberty Bond is this: Hold the bond you bought during the war; it is as safe and sound as the United States Government itself.

Buy as many more at the present low rate as you can afford. If you hold them to maturity, you are bound to make the difference between what they sell at now and their face value. You will also receive good interest on your investment. Hold onto your Liberty Bonds and buy more.

Senior Play

The senior class play, "Silas, the Chore-boy," was given at Dudley opera house, Friday evening before a large audience. Each one in the cast seemed especially fitted for his particular part.

Those who brought most laughs were Charles E. Noyes as Jed, the town constable, and Silas fond of his time novel and always interrupted at the exciting point by his aunt Nancy calling for him to do some errand, and Cinch, the dorky, impersonated by Chester Kimball.

Roydon Buns and Mansfield Packard, hero and villain respectively, were very dramatic and made their parts seem real.

The old father was well represented by Lewis Tirrell. Charlotte Douglass showed exceptional skill in the role of the persecuted wife.

Christina Willard as Port had the soubrette part and her wit and pleasing appearance delighted the audience. The part of the maiden aunt was well given by Annie Cross.

Perhaps the best part of the play was the introduction in the last act which represented the interior of a stable of some real live stock. Between the acts a chorus of Indian maids and braves sang and a solo was given by Gwendolyn Bartlett.

Special scenery was provided for each act and much time was put on this by the stage manager, Clyde Brooks, and assistants, Eben Rand and Lawrence Jordan.

This is the year when potatoes and other vegetables are going to be worth money, and a considerable amount of it, too. Everybody is talking of how the high wages are going to prevent the farmer from doing much planting this season. If this is true, then the vegetables which usually come from the farms, will be a scarce article, and the scarcity will jump the price. Say, but it is true that you cannot eat your pudding and have it too. And the only way to get prices down is to increase production. And the only way to increase production is to make lower wages and longer hours. But the wages never can catch up with the h. c. l. Something has got to get ahead and trip it up.

AID IN REDUCING H. C. L.

More than 1,265,000,000 pounds of virgin wool have accumulated in the storehouses of the world since the beginning of the war, according to statistics compiled by the National Sheep and Wool Bureau of America. When the world's wool clip of 1920 is completed, this amount will be increased by 2,500,000,000 pounds, it is expected. In spite of the high price of wool fabrics, the storehouses of America alone contained 700,000,000 pounds of virgin wool last September, ten months after the signing of the armistice, or 100,000,000 pounds more than the country's annual consumption. The National Sheep and Wool Bureau, is attempting to force cloth manufacturers to withdraw virgin wool from the storehouses through the passage of the so-called "Truth in Fabric" Bill.

"The reason huge stocks of virgin wool are now lying in storehouses unmanufactured is that the use of unidentified shoddy enables manufacturers to make more money."

"Even the most honest retailers are unable to detect the presence of shoddy in 'all wool' clothing without knowing that he is getting old rags re-spun, and pays virgin wool prices."

"The Truth in Fabric Bill, when enacted into law, will make the manufacturers come out in the open and tell what their goods are made of. Then, people who want virgin wool, and are ready to pay for virgin wool, can get honest cloth and goods made of shoddy will take its rightful place and price and can no longer masquerade as virgin wool."

"The world produces scarcely a third less wool than it needs annually. With proper encouragement, farmers would increase their flocks of sheep and that, in the long run, would mean more and cheaper wool and more and cheaper lamb and mutton. Every voter is vitally interested in honest cloth, cheaper wool and cheaper meat."

COMMON SENSE SUGGESTION
There has been a newspaper discussion over in Farmington as to the raising of salaries of teachers and to the ways of keeping the cost of education within reasonable limits of expense and the following solution has been suggested. It will apply in Norway as well as in Farmington and we give it space.

"In speaking of the controversy over teachers' salaries, which has been going on in these columns for some weeks, one of our citizens suggests that we have lost sight of one of the worst features of the situation and that is the broadening out of the course of study during the past twenty years."

He claims that while most meritorious in their way, the teaching of typewriting and stenography, of domestic science, of manual training and of music in a specific way should have no place in the common schools; that such studies are provided for in institutions provided for the purpose and that the few who avail themselves of such courses cost the towns and cities a lot of money that might well be given to teachers in the regular common school branches.

He says he recognizes the fact that present conditions demand larger salaries and that the only way, without overburdening the taxpayers, is to retrench; to cut out all unnecessary courses of study until normal times return. He says that the commercial course in the Farmington High School did not cost less than \$1,000 in 1919; that the training cost nearly \$250 and that no one seems to know how much it cost to try to teach the young voices how to sing.

He is in favor of cutting out all appropriations for such purposes and devoting the money to paying salaries of teachers in the legitimate branches of the common schools.

"This is what might be done in this town to no great damage of our schools."

"There isn't a bit in the house," is the lie women tell while urging their husbands not to forget to stop at the store for groceries.

A well-known Justice of the Peace in Indiana says Hood's Sarsaparilla made "food taste good," as after taking three bottles he eats three hearty meals a day, works hard and sleeps well. Says a Glass of Hot Water Every Morning Before Breakfast Will Take Off Fat If You Get More Fresh Air

Be Moderate in Your Diet and Reduce Your Weight with Tassco

Lack of fresh air weakens the oxygen-carrying power of the blood, the liver becomes sluggish, fat accumulates and the action of many of the vital organs are hindered thereby. The heart action becomes weak, work is an effort and the beauty of the figure is destroyed.

Put on by indoor life is unhealthy and if nature is not assisted in throwing it off by increasing the oxygen-carrying power of the blood, a serious case of obesity may result.

When you feel that you are getting too stout, take the matter in hand at once. Don't wait until your figure has become a joke and your health ruined through carrying around a burden of unsightly and unhealthy fat.

Spend as much time as you possibly can in the open air; breathe deeply, and get from A. L. Clark Drug Co., a box of Tassco, take a glass of hot water every morning before breakfast then take Tassco after each meal and at bedtime.

Weigh yourself every few days and keep up the treatment until you are down to normal. Tassco is absolutely harmless, is pleasant to take, helps the digestion and is designed to increase the oxygen-carrying power of the blood.

Even a few days' treatment should show a noticeable reduction in weight. There is nothing better for obesity.

OXFORD CO. SUPREME JUDICIAL COURT

Only two indictments were found at the May term of court held at Rumford, as follows: Barry Butler, larceny; Henry LaBell, larceny.

The cases against Henry LaBell, indicted for stealing a suit of clothes, and against Barry Butler, indicted for theft of property from the Oxford Paper Co., have on recommendation of County Attorney Dyer been continued during good behavior.

The slander case, Carlo Zannoni vs. Peter Arden, where Arden had accused Zannoni of stealing goods from Orino's store, was taken out of court and settled.

Perhaps more men were made citizens at this term than any other in the history of the county. There appeared 166 to take oath. Of these 145 were admitted to citizenship, 36 being soldiers. Most of the new made citizens are residents of Rumford and were Canadians.

In the case of Antonio Rudens vs. Tony Albright, the jury returned a verdict of the full amount sued for, with interest. The plaintiff alleged that Albright stole \$490 from Rudens' room. After the verdict, Albright was arrested on a warrant charging larceny.

FUMIGATE NOW

Every Room—It's the Vital Part of Housecleaning.

Every room in every home should be fumigated in the spring, but especially the bedrooms.

Germs accumulate in winter. Every cough or sneeze emits them. They lodge, where sunshine cannot reach them in draperies, rugs, bedding, crevices and clothes.

Cleaning does not end them. The way to destroy them is with formaldehyde gas, so used as to permeate everywhere.

Not Clean Without

Rooms are not clean without this fumigation. It is just as important in the home as it is in Pullman cars. Danger lurks in germs.

This is important in every home after the shut-in months. But it is doubly important when you move to a home which other folks have occupied. Do your own fumigation, then you'll be sure about it.

Easy and Not Costly

The B & B Formaldehyde Fumigator makes this protection easy. You simply light the wick. Formaldehyde gas does not injure furnishings or fabrics. It injures only living things, like germs. Remove just the living plants.

Open the beds and closets so the gas can penetrate. Light the fumigator, shut the doors and windows, and let the germ-destroying gas remain a few hours.

Then open the windows and note how clean the room seems. And it is.

Be sure to get the B & B Fumigator, for it conforms with Government standards. Fumigation is too important to be inefficient. The cost is slight.

They used to call a man a "sport" when he bought an automobile

THAT was before the days when pretty nearly everybody owned one—or could, if he wanted to.

There was a lot of waste about motoring in those days. A man spent a lot of money on his car and never thought very much about *what he was getting* in return.

II

When a man buys a tire nowadays he has a *pretty definite idea* of what he expects to get out of it.

The dealer who sells him one that gives him *less* than he expects isn't likely to get any more of his business.

That's one of the reasons why we handle U. S. Tires—and *recommend them* to the

motorists of this community.

III

The U. S. reputation for quality is *not* built on *any* one tire.

There is not *one standard* for large U. S. Tires and *another standard* for small ones.

Every tire that bears the name "U. S." is built the *best way* its makers know how to build it. The *oldest* and *largest* rubber concern in the world *cannot afford* to play favorites in seeking its public.

Come in and tell us what you are looking for in tires.

We can probably tell you whether you need a U. S. Nobby, Chain, Usco, Plain, or a Royal Cord.

Select your tires according to the roads they have to travel:

In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

ROYAL CORD—NOBBY—CHAIN—USCO—PLAIN

For ordinary country roads—The U. S. Chain or Usco.

After the close of the meeting a sandwich and posty supper was served in the dining room. The weather kept many outside the village at home and it is hoped that later on another meeting may be devoted to the children.

The next regular meeting will be on Saturday evening, May 22nd. Question for discussion, "Which is of the more importance, to the farmer, fertile soil or good business methods?" Opened by Carl Hamlin. Committee on program, Elinor Saunders, Carrie Haynes and Marjorie Kingman.

Tableaux Children

These were the same given children's night with the addition of "An Eclipse of the Sun (son)," and "Carrying the Wash."

A few appropriate remarks were then made by Rev. Mr. Jones and a clock presented Mr. and Mrs. Riggs from the Grange as a token of appreciation of their interest and work in the Order. Several members expressed regret that our Brother and Sister will now be so much farther away and spoke of their work in the past.

This was something of a farewell party, but we were glad to know that it was not necessarily that entirely as they will still retain their membership in Bear Mt. Grange and attend the meetings through the auto season.

A large number of members and their families were present and also, by invitation, members of the Eastern Star of which Mr. and Mrs. Riggs are both members. The following was written for the occasion:

Clem and Ida
In the wide world around us,
Some things look big
But they're nothing, compared
To Uncle Clem Riggs
When coffee is wanted,
Or a good Oyster Stew,
He'll beat the whole town,
And Blackguard, too.
And Ida's a treasure,
Clem's better half,
She's always around
With a good hearty laugh.
The time has come when good friends must part,
No matter what we think or talk,
And as a token to you, dear friends,
Please accept this little clock.
'Twill keep good time we surely hope,
'Till death shall come and part us,
Remembering that in this little town,
Was born the only Artemus.

Mr. and Mrs. Riggs have been married fifty years, thirty of which they have been active members of the Grange. They have always been active workers in and for the Order and everyone is glad they may still be with us often. They and Mr. and Mrs. Woodman Charles will make their home together at Bridgton which will be very pleasant, especially for the sisters.

In a day or two you lift the old misery-maker right off without even feeling it. That's the last of Mr. Corn and the last of your misery. Millions who have lost their corns the "Gets-It" way say it is the only common-sense way to get rid of the pests.

"Gets-It" the never-failing, guaranteed money-back corn remover costs but a trifle at any drug store. Mfd by E. Lawrence & Co., Chicago.

Sold in Norway and recommended as the world's best corn remedy by F. P. Stone.

Fancy Drill For American Legion

Sixteen young ladies presented a flag
drill at Norway Opera House Friday eve-
ning. Charles S. Akers, who has in times
past put on several original drills, offici-
ated as drill master. The intricate fig-
ures were done without orders, with Mrs.
C. S. Akers at the piano. The young la-
dies were dressed in white with sashes of
red, white and blue, over the right shoul-
der and brought together at the left side
with a loose knot. They also wore natty
caps of the same colors. Some of the
figures made were a shield, flag, circles,
wheels in fours, breaking into wheels in
twos, and wheels within wheels. One
pretty figure was made with eight young
ladies forming pillars, with four to a side
while the remaining eight intertwined,
ending in a long straight column. There
were numberless styles of marching and
counter-marching, all the time with lines
in perfect order. Their straight lines in
fours and eights and at intervals clear
across the hall, brought forth bursts of
applause. In the grand finale all formed
across the hall with the flag waving a
verse to the music composed by William
Leith, who was at one time manager of
the town team of baseball. They respon-
ded to the encore with a few military fig-
ures, repeating the song.

Mrs. Stephen O. Jellerson was the
prime mover in the drill which was one
of the season's successes for the benefit
of William H. Stone Post, American
Legion. The young ladies taking part
were: Mrs. Marion Jellerson, Mrs. Eth-
elyn Lasselle Lapham, Ruth Cummings,
Sara True, Ruth Carroll, Ruth Akers,

CASE OF EVERYBODY

Everybody walks the streets of this town.

Everybody sees bits of paper and refuse on the streets—possibly everybody helps to put them there.

Everybody thinks they are unsightly and should be removed, but everybody waits for somebody else to do it.

Now if everybody would make a point of picking up this refuse, we would have a more sightly town, and everybody would take pride in living in a place which everybody helps to keep clean.

Let's everybody get busy for the benefit of everybody else.

HIDES LOWER THAN IN 1919

Hides are stored in California warehouses by thousands and are selling at decidedly lower prices than in 1919, says Mrs. Edward F. Scholten, president of the branch of the state housewives League, which has been investigating the leather industry in an effort to discover why shoe prices are so high.

"Members of the league delegated to make this investigation have made a personal canvass of the leather of the San Francisco bay district, and the findings are startling," she said. "The finest grades of hides that brought 70c a pound in 1919 are selling today for 40c. We have made a careful study of the different elements that make up the retail price of shoes. We find that the labor cost of a pair of shoes never exceeds a dollar and eighty cents."
